

KSHITIZ YADAV

Product Manager — Growth & Acquisition | AI-First Product Experiences (Shipped GenAI/LLM) | Funnel, Conversion, Engagement & Retention | B2C Consumer Internet, Agile, Data-Driven

Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years in B2C consumer internet (high-growth EdTech) owning the growth and acquisition charter end-to-end — across the full customer journey from acquisition and conversion to engagement and optimization. Builds and ships AI-powered product features with measurable impact (production GenAI, LLMs, prompt engineering, AI-assisted workflows), partners across engineering, design, marketing, analytics, and business, and runs Agile delivery, user research, and experimentation. High-ownership. Track record of 20% revenue growth and ₹70L in renewals.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C consumer-internet marketplace (high-growth EdTech) connecting students and teachers via a shared LMS — consumer app, growth & acquisition journey, sales CRM, and an in-house AI layer — partnering across engineering, design, marketing, analytics, and business.

Growth & Acquisition — Conversion, Engagement & Retention

- Own the growth and acquisition journey end-to-end (acquisition → conversion → engagement → optimization): re-architected the sign-up → enrolment funnel (single-step OTP, best-fit ranking, 6 payment gateways) and launched organic acquisition loops (2,000+ leads/month at 7% conversion).
- Drove conversion, engagement, and retention: built the LPP monetization module (20% revenue growth, 25% ARPU ₹35K → ₹45K) and an in-product renewal engine (₹70L renewals in a single month, +45% retention).
- Conducted user research, analyzed customer feedback and product data, and ran experiments (A/B testing) to continuously optimize the funnel and business outcomes.

AI-First Product Experiences (Shipped End-to-End)

- Built and shipped AI-powered product features with measurable impact: a production GenAI learning layer (contextual, age-appropriate responses), an NLP support chatbot that cut escalations, and 'Demo Analysis' — an AI feature that analyzes user behavior to surface personalized plans — using LLMs and prompt engineering.
- Identified opportunities to automate workflows and improve decision-making with AI-assisted workflows — cutting operational workload 80% and using AI to accelerate discovery, PRDs, and prototyping.

Execution, Metrics & Stakeholders

- Translated customer problems and business requirements into clear PRDs, user stories, acceptance criteria, and functional specs, and drove end-to-end Agile execution (backlog prioritization, sprint planning, reviews, releases).
- Defined success metrics, monitored product performance (SQL via Metabase → Power BI, GA4), and partnered with stakeholders to ensure successful launches and adoption — with a bias for action.

CORE COMPETENCIES

Growth & Acquisition • Customer Journey (Acquisition → Conversion → Engagement → Optimization) • AI-Powered Product Features (Shipped End-to-End) • LLMs, Prompt Engineering & AI-Assisted Workflows & Automation • Product Roadmap & Execution • PRDs, User Stories, Acceptance Criteria & Functional Specifications • Agile (Backlog, Sprint Planning, Reviews, Releases) • User Research & Customer Feedback • Conversion, Engagement & Retention • Success Metrics & Experimentation • Data-Driven & Analytical • Cross-Functional (Engineering, Design, Marketing, Analytics, Business) • Stakeholder Management & Influence • Product Launches & Adoption • B2C Consumer Internet • High Ownership & Bias for Action

TECHNICAL SKILLS & TOOLS

- AI & Product:** Production GenAI, LLM APIs (OpenAI/Gemini/Claude), Prompt Engineering, AI-assisted workflows, NLP; PRDs, user stories, acceptance criteria
- Growth & Analytics:** Funnel optimization, conversion/engagement/retention, A/B testing/experimentation, SQL, Metabase, Power BI, GA4
- Delivery:** Agile/Scrum (backlog, sprints, reviews, releases), RICE prioritization, roadmap, JIRA, Confluence
- Design & Prototyping:** Figma, Adobe Express, Canva AI, wireframing, clickable prototypes

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
