

KSHITIZ YADAV

Product Manager | Product Vision, Strategy & Roadmap | Market/Competitive Analysis & Pricing (Revenue, ROI) | Agile Requirements & GTM | GenAI-Enabled
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years setting product vision, strategy, and roadmap grounded in market/TAM and competitive analysis, then translating it into high-level requirements and prototypes shipped via Agile. Owns pricing, revenue, profitability, and ROI; articulates business value to cross-functional teams and influences without formal authority; and communicates GTM and release progress to stakeholders. Uses Generative AI to automate tasks and extract actionable insights. Track record of 20% revenue growth and ₹70L in product-led renewals.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a consumer marketplace connecting students and teachers via a shared LMS — consumer app, LMS, sales CRM, and an in-house AI layer — from product vision and pricing through Agile delivery, GTM, and release, influencing cross-functional teams without formal authority.

Growth & Monetization

- Built the LPP (Learn, Practice, Perform) module — customized 1:1 sessions, group activities, and performance tasks — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).
- Designed an in-product renewal engine (nudges, early-bird access, LMS free-trial classes, teacher-initiated renewals) that lowered sales cost and generated ₹70L in renewals in a single month (Jan 2025).
- Launched organic acquisition loops surfacing student progress (Sparkline, Word Wisdom, practice classes, workshops) across social channels, bringing 2,000+ organic leads/month at a 7% conversion rate.
- Built a counselor-wise P&L tracker computing weekly profitability per sales counselor (Net Revenue – Fixed, Refund, Marketing & Sales cost), giving each counselor the revenue figure needed to turn profitable — putting unit-economics visibility in the hands of the front line.

Funnel & Platform (0→1)

- Re-architected the sign-up → demo → enrolment funnel: single-step OTP sign-in (replacing a two-step create-then-login flow), a preference-capture ranking model that surfaces best-fit courses during the counselor VC, 6 API-integrated payment gateways with pre-filled links, and auto-cleared parent-approval on payment — reducing drop-off across the sign-up, payment, and enrolment stages.
- Led the 0→1 launch of the consumer app MVP in 2 months (Feb–Mar 2024: ~1% organic revenue, +10% engagement); built the Student LMS (live classes, feedback reports, PTMs, in-house meeting room), raising course completion 15% and improving NPS.

AI, Design & Automation

- Designed prototypes and MVP interfaces for the app, LMS, and CRM in Figma, Adobe Express, and Canva AI — using Gemini, Claude, ChatGPT, and Codex to accelerate iteration into clickable flows that aligned engineering and stakeholders before build.
- Shipped a production GenAI layer (speech/text learning with contextual, age-appropriate responses) and a support chatbot that cut escalations; revamped the Sales CRM (lead navigation, integrated calling, revenue tracking, target-vs-achievement, incentive management), cutting sales-ops workload 80%.
- Automated incentive flows and enrolment verification (100% coverage), saving ₹1.6L/month and eliminating fake-revenue reporting.

CORE COMPETENCIES

Product Vision, Strategy & Roadmap • Feature Definition (Why / When / What) • Market/TAM & Competitive Analysis • High-Level Requirements & Prototypes • Agile Methodology & User Stories • Pricing, Revenue, Profitability & ROI • Budget & Cost Management (P&L, Unit Economics) • Business-Value Articulation • Cross-Functional Influence Without Formal Authority • Partner Relationships & Integrations • Go-to-Market & Release Milestones • Stakeholder Communication • Generative AI (GenAI) for Automation & Actionable Insights • Software Release Launch

TECHNICAL SKILLS & TOOLS

- Product & Strategy:** Product vision/strategy/roadmap, feature definition, market/competitive analysis, pricing & ROI, RICE prioritization
- Agile & Delivery:** User stories, requirements, prototypes, release milestones, GTM, JIRA, Confluence, Agile/Scrum
- Data & GenAI:** SQL, GA4, Power BI, A/B testing; Generative AI (OpenAI/Gemini/Claude), Prompt Engineering for automation & insights
- Design & Prototyping:** Figma, Adobe Express, Canva AI, wireframing, clickable prototypes

EDUCATION

BBA — Chandigarh University, Chandigarh
Class XII (ISC), St. Thomas High School, Kanpur

2019 – 2021
2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
