

KSHITIZ YADAV

Product Manager | Generative AI Products & Adoption | Business Problems → AI/Data Solutions | Senior Stakeholder & Project Management | Gurugram
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years shipping Generative AI and data products and driving their adoption across a high-growth organization — based in Gurugram. Partners with data and analytics teams and business stakeholders to understand core processes, identify where Generative AI adds value, and translate business problems into well-scoped, data-driven AI projects. Hands-on with GenAI tools (OpenAI, Gemini, Claude) as a daily productivity multiplier across research, analysis, and problem solving. Strong senior-stakeholder management, project management across multiple initiatives, and analytics & visualization (SQL, Power BI) — with a record of shipping a production GenAI layer, an AI sales-enablement tool, and ₹1.6L/month in automation savings.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Generative AI Products & Adoption

- Shipped a production Generative AI layer and built "Demo Analysis," an in-house GAI tool that analyzes customer behavior to surface AI-generated recommendations to sales — driving adoption across the sales org.
- Identified where Generative AI adds value across workflows and translated business problems into scoped AI projects, using OpenAI, Gemini, and Claude both in-product and as a daily productivity multiplier for research and analysis.

Data, Analytics & Visualization

- Partnered with analytics to build insight-driven Power BI dashboards (from Metabase SQL) for Marketing, Sales, and Operations — translating business questions into data-driven solutions and visualizations.
- Automated workflows and enrolment verification with data (100% coverage), improving efficiency and saving ₹1.6L/month.

Stakeholder & Project Management

- Served as the point of contact between business and technical teams — engaging senior stakeholders, refining project specifications, and maintaining a regular reporting cadence on progress and new opportunities.
- Managed multiple concurrent projects to tight deadlines with strong problem-solving and attention to detail, communicating technical and business concepts to both technical and non-technical audiences.

CORE COMPETENCIES

Generative AI (GAI) Product Management & Adoption • Translating Business Problems → Data-Driven / AI Solutions • Data Science & Analytics Collaboration • Senior Stakeholder Management • Project Management (Multiple Concurrent Projects) • Analytics & Visualization (SQL, Power BI) • Project Scoping & Specifications • Technical-Business Communication • Problem Solving & Analytical Rigor • Attention to Detail • Cross-Functional Delivery • Prompt Engineering & AI Tooling

TECHNICAL SKILLS & TOOLS

- AI & GenAI:** OpenAI / Gemini / Claude APIs, Prompt Engineering, GenAI as a daily productivity multiplier, LLM use-cases
- Data & Analytics:** SQL, Power BI, GA4, Metabase, MS Excel (Advanced), Python (basic)
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, project scoping, RICE prioritization
- Design & Visualization:** Figma, wireframing, dashboards & data visualization
