

KSHITIZ YADAV

Product Manager | API-First Platform & Partner Integrations | Content Catalogue & CMS | Attribution, Targeting & Funnel | Agile
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years defining and delivering API-first, reusable platform capabilities and third-party integrations at a high-growth B2C platform. Owns the end-to-end lifecycle of integrations with external technology partners - payment gateways (Razorpay, PayU, PayGlocal, PayPal, Bajaj), telephony (Exotel, Servetel, Tata Tele), live-class video (Daily.co, 100ms), video counselling and recording (Convin), and messaging (Gupshup, Venera Connect) - acting as the primary point of contact from discovery through implementation and maintenance. Built and deployed a grade- and course-wise content catalogue and automated content generation with AI. Owns lead-source attribution (UTM parameters and tracking cookies in a centralized CRM), audience segmentation and targeting, and writes clear requirements, user stories, acceptance criteria, API contracts, and integration specifications.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram · Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

API-First Platform & Third-Party Partner Integrations

- Own the lifecycle of third-party technology integrations end-to-end - payment gateways via their APIs (payment creation, status verification, webhooks), telephony (Exotel, Servetel, Tata Tele), live-class video (Daily.co, 100ms), video counselling and recording (Convin), and messaging (Gupshup, Venera Connect) - acting as the primary point of contact with external partners from discovery through implementation and ongoing maintenance.
- Built reusable, configurable capabilities rather than point solutions: a shared payments capability and an omnichannel support service consolidating LMS, email, WhatsApp, and chatbot channels, reused across the app, LMS, and CRM.

Content Catalogue, Attribution & Audience Targeting

- Built and deployed a grade-wise and course-wise content catalogue with the content team - surfaced by learner choice and teacher recommendation - then automated content generation with AI prompts, removing the manual content-team effort previously required.
- Own lead-source attribution in a centralized CRM: inbound leads auto-tagged via UTM parameters and tracking cookies on form submission, outbound leads uploaded or entered by counselors; partnered with Marketing and Sales to optimise lead flow, lead acceptance, and best-performing sources.
- Drove audience segmentation and targeting - personalised course plans by learner grade, professional segments by industry and seniority, and keyword targeting on the highest-volume customer search terms.

Specifications, Adoption & Commercial Value

- Write clear product requirements, user stories, acceptance criteria, and integration specifications; partner with engineering on API contracts, data schemas, and system behaviours, including security and data quality; measure adoption and reliability via SQL and Power BI dashboards.
- Prioritise and deliver large, ambiguous initiatives creating commercial value - re-architected the sign-up to enrolment funnel and shipped monetization and renewal capabilities driving 20% revenue growth, 25% ARPU expansion, and Rs 70L in renewals in a single month.

CORE COMPETENCIES

API-First Platform Capabilities · Third-Party & Partner Integrations (lifecycle owner) · Reusable Capabilities & Configurable Integration Patterns · Content Catalogue & Content Management · Attribution & Lead-Source Tracking (UTM, Cookies, CRM) · Audience Segmentation & Targeting · Campaign Performance & Funnel Optimisation · Integration Specifications, API Contracts, Webhooks & Data Schemas · Product Requirements, User Stories & Acceptance Criteria · Adoption, Reliability & Data Quality Metrics · Business and Technical Stakeholder Management · Cross-Functional Agile Delivery · Execution Roadmap & Prioritisation · SQL & BI

TECHNICAL SKILLS & TOOLS

- Platform & Integration:** REST APIs, webhooks, API contracts, data schemas, data mappings, third-party system integration
- Data & Analytics:** SQL, Power BI, Metabase, GA4, UTM and cookie-based attribution, MS Excel (Advanced)
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, user stories, acceptance criteria, RICE prioritisation
- AI & Tools:** OpenAI / Gemini / Claude APIs, Prompt Engineering, AI-automated content generation, Figma

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
