20% Revenue Growth • 25% ARPU Expansion (₹35K → ₹45K) • ₹70L Renewals in a Single Month • 80% Lower Ops Workload

PROFESSIONAL SUMMARY

Product Manager with 5+ years owning products end-to-end — from the business question to the decision it enables — with a strong data, analytics, and reporting foundation. Built insight and reporting capabilities (SQL, Power BI dashboards, KPIs, a P&L tracker) that drove commercial decisions, and shipped API-integrated, platform capabilities with engineering and data teams. Translates business and user needs into clear PRDs, user stories, acceptance criteria, and integration specs; frames problems before they're fully specified; and manages business, technical, and partner stakeholders. Delivered 20% revenue growth and 80% lower operational workload.

PROFESSIONAL EXPERIENCE

PlanetSpark — Gurugram

A B2C subscription marketplace (EdTech) connecting 150,000+ enrolled users with teachers via a shared LMS — spanning consumer app, two-sided platform, payments, CRM, renewals, and lifecycle products, with 30,000+ daily active users. Progressed across three roles while owning an expanding product surface.

Product Manager

Sep 2023 – Present

- Built an advisor-wise P&L tracker (weekly Net Revenue – Fixed, Refund, Marketing & Sales cost) whose visibility drove profitability interventions — profitable advisors rose from 50 to 100 in one month and to 125 over the next two.
- Re-architected the sign-up → demo → enrolment funnel — single-step OTP, a preference-capture ranking model, and 6 API-integrated payment gateways with pre-filled links and auto-cleared approvals — enabling self-serve, plan-based purchase with no manual intervention.
- Own the full product suite — consumer app, student & teacher LMS, advisor CRM, renewal engine, and in-house AI layer — for a platform with 150,000+ enrolled users and 30,000+ daily active users, leading a cross-functional squad of 8 engineers and 2 QA from discovery to launch.
- Designed an in-product renewal engine (nudges, early-bird access, LMS free-trial classes, teacher-initiated renewals) that reduced assisted-renewal cost and generated ₹70L in product-led renewals in a single month (Jan 2025).

Assistant Product Manager

Sep 2022 – Aug 2023

- Automated enrolment verification and incentive flows to 100% coverage and revamped the advisor CRM (lead navigation, calling, revenue & target tracking) — cutting operations workload 80% and saving ₹1.6L/month.
- Built the LPP (Learn, Practice, Perform) module — customized 1:1 sessions, group activities, and performance tasks — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).

Senior Product Analyst

Mar 2021 – Aug 2022

- Developed SQL and Power BI reporting across growth, revenue, and operations; improved weekly revenue accuracy and created a data foundation for product and commercial decisions.
- Implemented customer-verification controls that reduced invalid or fraudulent transactions from 10% to 1% while minimizing manual intervention.
