

KSHITIZ YADAV

Product Manager | Growth, Monetization & Payments | Consumer, Marketplace & Platform Products | SQL, Analytics & APIs
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav
20% Revenue Growth • 25% ARPU Expansion (₹35K → ₹45K) • ₹70L Renewals in a Single Month • 80% Lower Ops Workload

PROFESSIONAL SUMMARY

Product Manager with 5+ years of product experience building growth, monetization, payments, and workflow-automation products across consumer apps, a two-sided marketplace, CRM, and internal platforms serving 150,000+ enrolled users. Progressed from Senior Product Analyst to Assistant Product Manager to Product Manager — owning discovery, PRDs, prioritization, launch, and iteration with engineering, design, and business teams. Delivered 20% revenue growth, 25% ARPU expansion, ₹70L in product-led renewals in a single month, and 80% lower operational workload, using SQL, Power BI, and AI as force-multipliers.

CORE COMPETENCIES

Product Strategy & Roadmapping • Product Discovery & User Research • PRDs & Prioritization • Growth & Monetization • Pricing & Packaging • Retention & Lifecycle • Funnel & Conversion Optimization • Payments & API Integrations • Workflow Automation • Product Analytics & Insights • GTM & Product Launch • Marketplace & Platform Products • Unit Economics • Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

PlanetSpark — Gurugram

A B2C consumer marketplace (EdTech) connecting 150,000+ enrolled users with teachers via a shared LMS — spanning consumer app, two-sided platform, payments, CRM, renewals, and lifecycle products, with 30,000+ daily active users. Progressed across three roles while owning an expanding product surface.

Product Manager

Sep 2023 – Present

- Own the full product suite — consumer app, student & teacher LMS, advisor CRM, renewal engine, and in-house AI layer — for a platform with 150,000+ enrolled users and 30,000+ daily active users, leading a cross-functional squad of 8 engineers and 2 QA from discovery to launch.
- Designed an in-product renewal engine (nudges, early-bird access, LMS free-trial classes, teacher-initiated renewals) that reduced assisted-renewal cost and generated ₹70L in product-led renewals in a single month (Jan 2025).
- Increased the share of enrolled users rating the product 5 out of 5 from 10% to 25% via onboarding and retention work: seamless onboarding, teacher PTMs and feedback, a one-page student-detail UI, a loyalty program, and the PSpark in-app wallet.
- Re-architected the sign-up → demo → enrolment funnel — single-step OTP, a preference-capture ranking model, and 6 API-integrated payment gateways with pre-filled links and auto-cleared approvals — enabling self-serve, plan-based purchase with no manual intervention.
- Built an advisor-wise P&L tracker (weekly Net Revenue – Fixed, Refund, Marketing & Sales cost) whose visibility drove profitability interventions — profitable advisors rose from 50 to 100 in one month and to 125 over the next two.
- Shipped a production GenAI learning layer (age-appropriate speech/text responses) and a RAG-based support chatbot — cutting first-response time from 4 minutes to under 10 seconds and monthly escalations from ~300 to under 50 within three months.
- Ship minor and mid-level product features using AI-assisted development (Claude Code) — scoping, implementing, and testing changes, and raising merge requests for engineering review.

Assistant Product Manager

Sep 2022 – Aug 2023

- Built the LPP (Learn, Practice, Perform) module — customized 1:1 sessions, group activities, and performance tasks — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).
- Rebuilt the teacher LMS with real-time payout automation, accurate payout summaries, and consolidated CRM and class details — lifting teacher NPS from -20 to +40.
- Automated enrolment verification and incentive flows to 100% coverage and revamped the advisor CRM (lead navigation, calling, revenue & target tracking) — cutting operations workload 80% and saving ₹1.6L/month.
- Launched organic acquisition loops surfacing student progress (Sparkline, Word Wisdom, practice classes, workshops) across social channels, bringing 2,000+ organic leads/month at a 7% conversion rate.

Senior Product Analyst

Mar 2021 – Aug 2022

- Developed SQL and Power BI reporting across growth, revenue, and operations; improved weekly revenue accuracy and created a data foundation for product and commercial decisions.
- Implemented customer-verification controls that reduced invalid or fraudulent transactions from 10% to 1% while minimizing manual intervention.

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, GA4, Power BI, MS Excel (Advanced), Python (basic)
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, RICE prioritization, Figma
- AI & Integration:** OpenAI / Gemini / Claude APIs, Claude Code, Prompt Engineering, RAG, REST APIs, Payment Integrations

EDUCATION & CERTIFICATIONS

BBA — Chandigarh University, Chandigarh

2018 – 2021

Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
