PROFESSIONAL EXPERIENCE

PlanetSpark — Gurugram

A B2C consumer marketplace (EdTech) connecting 150,000+ enrolled users with teachers via a shared LMS — spanning consumer app, two-sided platform, payments, CRM, renewals, and lifecycle products, with 30,000+ daily active users. Progressed across three roles while owning an expanding product surface.

Product Manager

Sep 2023 – Present

- Own products end-to-end, ideation to launch to scale, for both external customers and internal business users on a two-sided marketplace of 150,000+ users, leading cross-functional work across engineering, design, operations, growth, and finance.
- Re-architected the acquisition-to-conversion funnel (single-step OTP, ranking, 6 payment gateways) and built retention and monetization (renewal engine, Rs 70L in a single month), improving customer experience and conversion.
- Built a P&L and product-KPI tracker in SQL and Power BI, translating business problems into scalable solutions and driving data-driven decisions (profitable advisors rose from ~50 to 125 over three months).

Assistant Product Manager

Sep 2022 – Aug 2023

- Rebuilt the agent-facing Sales CRM into one workforce-productivity workspace, lead navigation, integrated calling (Exotel, Servetel), target-vs-achievement tracking, and incentive management, cutting sales-operations workload ~80% and freeing agents to sell instead of doing admin.
- Automated internal business workflows end-to-end, backend revenue-punching (manual ~100% to 2%), enrolment verification, and incentive flows, saving Rs 1.6L/month, lifting same-day revenue realization 70%, and eliminating fake-revenue reporting.
- Built the LPP monetization module (20% revenue growth, 25% ARPU expansion) and trained and mentored a team of 8, strengthening product and operations practices in an Agile, fast-paced startup.

Senior Product Analyst

Mar 2021 – Aug 2022

- Built SQL and Power BI dashboards (from Metabase) and ran A/B experimentation, analytics, and user research to prioritise improvements and measure business outcomes.
- Implemented customer and transaction-verification controls that cut invalid or fraudulent transactions from 10% to 1%, improving quality and trust with minimal manual intervention.
