PROFESSIONAL SUMMARY

Product Manager with 5+ years driving product-led growth across the full user journey -- onboarding, activation, engagement, retention, and organic acquisition -- for B2C platforms. Runs growth experiments (A/B testing), market research, and competitive benchmarking, translating user behavior into requirements and execution roadmaps (SQL, Power BI, Google Analytics/GA4). Track record of moving core growth metrics: 20% revenue growth, 25% ARPU expansion, ₹70L in product-led renewals, and 2,000+ organic leads/month at 7% conversion.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Product-Led Growth: Onboarding, Activation & Funnel

- Re-architected the sign-up → demo → enrolment funnel end-to-end -- single-step OTP onboarding, a preference-capture ranking model activating best-fit course selection, vendor-integrated payment gateways (Razorpay, PayU, PayGlocal, PayPal, Bajaj), and auto-cleared parent approval -- cutting drop-off across every funnel stage.
- Led the 0→1 launch of a consumer app MVP in 2 months (Feb–Mar 2024: ~1% organic revenue, +10% engagement); built the Student LMS, raising course completion 15% -- translating user behavior into requirements, specifications, and execution roadmaps end-to-end.

Growth Experiments, Retention & Organic Acquisition

- Built the LPP module -- validated and iterated via A/B testing -- driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).
- Designed an in-product renewal engine (nudges, early-bird access, free-trial classes, teacher-initiated renewals) to lift retention and lifetime value, generating ₹70L in renewals in a single month (Jan 2025).
- Ran market research and competitive benchmarking to launch organic acquisition loops (student-progress surfacing across social channels), bringing 2,000+ organic leads/month at a 7% conversion rate.

Metrics, Dashboards & Personalization

- Built multiple insight-driven Power BI dashboards (sourced from Metabase SQL queries) for cross-functional teams, tracking growth metrics and KPIs for continuous monitoring.
- Built "Demo Analysis," a self-customized in-house AI feature analyzing demo-session customer behavior to drive engagement and activation -- surfacing a customized course plan to the counselor for the sales conversation, based on real-time behavior and session-level signals.
