PROFESSIONAL SUMMARY

Product Manager with 5+ years defining product vision, strategy, and roadmaps for two-sided B2C platforms -- driving conversions, user experience, and stakeholder outcomes through close cross-functional collaboration (Technology, Design, QA, Finance, Support). Runs market research, competitive benchmarking, and data-driven experimentation (SQL, A/B testing) to own and track core product KPIs, translating customer and partner insight into scalable solutions. Track record of measurable business outcomes: 20% revenue growth, 25% ARPU expansion, ₹70L in product-led renewals, and 2,000+ organic leads/month at 7% conversion.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Product Vision, Strategy & Two-Sided Platform Ownership

- Owned the product vision, strategy, and roadmap for a two-sided EdTech marketplace (students and teachers) -- re-architecting the sign-up → demo → enrolment funnel end-to-end (single-step OTP, preference-capture ranking model, vendor-integrated payment gateways, auto-cleared parent approval) to improve conversions and user experience across the consumer journey.
- Led the 0→1 launch of a consumer app MVP in 2 months (Feb–Mar 2024: ~1% organic revenue, +10% engagement), collaborating closely with engineering, design, and business stakeholders end-to-end; built the Student LMS, raising course completion 15%.

KPI Ownership, Market Research & Growth

- Owned and tracked core product KPIs via the LPP module, driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900) through continuous post-launch iteration.
- Ran market research and competitive benchmarking to build product insight and launch organic acquisition loops, bringing 2,000+ organic leads/month at a 7% conversion rate.
- Designed an in-product renewal engine driven by customer engagement and feedback, generating ₹70L in renewals in a single month.

Data-Driven Execution & Cross-Functional Delivery

- Built multiple insight-driven Power BI dashboards (sourced from Metabase SQL queries) for cross-functional teams, enabling continuous performance tracking and data-driven decision-making.
- Built "Demo Analysis," a self-customized in-house AI feature translating customer behavior and feedback into an innovative, scalable sales-enablement solution -- surfacing a customized course plan to the counselor for the sales conversation.
