PROFESSIONAL SUMMARY

Product Manager with 5+ years driving end-to-end product ideation, development, and launch for B2C platforms -- partnering with engineering, design, marketing, and sales to deliver consumer products that resonate at scale. Runs market and competitor analysis, A/B testing, and customer-behavior-driven prioritization (SQL, Google Analytics/GA4) to move core metrics: 20% revenue growth, 25% ARPU expansion, ₹70L in product-led renewals, and 2,000+ organic leads/month at 7% conversion. Owns execution end-to-end across cross-functional stakeholders, including API-integrated payment infrastructure.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Product Ideation, Development & Launch

- Led the 0→1 launch of a consumer app MVP in 2 months (Feb–Mar 2024: ~1% organic revenue, +10% engagement), partnering with engineering, design, and marketing from ideation through go-to-market; built the Student LMS (live classes, feedback reports, PTMs), raising course completion 15%.
- Re-architected the sign-up → demo → enrolment funnel end-to-end -- single-step OTP sign-in, a preference-capture ranking model, vendor-integrated payment gateways (Razorpay, PayU, PayGlocal, PayPal, Bajaj) handling payment creation and status verification, and auto-cleared parent approval -- owning execution and vendor coordination across engineering, business, and third-party platform stakeholders.

Consumer Behavior, Market & Competitor Analysis

- Built "Demo Analysis," a self-customized in-house AI feature that analyzes demo-session customer behavior and surfaces a customized course plan to the counselor for the sales conversation, informed by real-time customer behavior, session requirements, and teacher feedback.
- Ran market research and competitor analysis to launch organic acquisition loops (student-progress surfacing across social channels), bringing 2,000+ organic leads/month at a 7% conversion rate.

Performance Tracking & Cross-Functional Delivery

- Built multiple insight-driven Power BI dashboards (sourced from Metabase SQL queries) for Marketing, Sales, and Operations teams; coordinated with third-party vendor platforms (Gupshup, Venera Connect for WhatsApp; Exotel, Tata Tele for calling) to integrate omnichannel customer touchpoints end-to-end.
- Built the LPP module -- validated and iterated via A/B testing -- driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).
