

KSHITIZ YADAV

Product Manager | Seller & Supply-Side Experience | Two-Sided Marketplace Tools: Onboarding, Catalog, Payouts & Performance | Self-Service Dashboards

Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

20% Revenue Growth • 25% ARPU Expansion (₹35K → ₹45K) • ₹70L Renewals in a Single Month • 80% Lower Ops Workload

PROFESSIONAL SUMMARY

Product Manager with 5+ years owning the supply-side (partner/seller) experience on a two-sided marketplace serving 150,000+ users and 30,000+ daily actives — building the onboarding, catalog, payouts, verification, and performance tools that partners run their business on. Rebuilt the partner-facing platform with real-time payout automation and consolidated self-service dashboards, lifting partner NPS from -20 to +40, and shipped workflow automation that cut manual operations 80%. Partners with engineering, operations, and business teams and uses SQL and Power BI to turn data into actionable insights, while keeping seller-facing systems scalable, reliable, and compliant.

CORE COMPETENCIES

Seller & Supply-Side Experience • Partner Onboarding & Enablement • Catalog & Content Management • Pricing & Promotions • Payouts & Order Management • KYC, Verification & Compliance • Dispute & Issue Resolution • Self-Service Tools & Dashboards • Performance Insights & Analytics (SQL, Power BI) • Workflow Automation • Two-Sided Marketplace Products • Prioritization (RICE) • Cross-Functional Leadership • Product Management

PROFESSIONAL EXPERIENCE

PlanetSpark — Gurugram

A B2C subscription marketplace (EdTech) connecting 150,000+ enrolled users with teachers via a shared LMS — spanning consumer app, two-sided platform, payments, CRM, renewals, and lifecycle products, with 30,000+ daily active users. Progressed across three roles while owning an expanding product surface.

Product Manager

Sep 2023 – Present

- Own the full product suite for a two-sided marketplace of 150,000+ users and 30,000+ daily actives — including the partner/seller-facing platform, content catalog, advisor CRM, and renewal engine — leading a cross-functional squad of 8 engineers and 2 QA from discovery to launch.
- Built the grade- and course-wise content catalog that partners and users transact through, then automated catalog generation with AI — removing the manual content-operations step that previously gated new listings.
- Consolidated support across LMS, email, WhatsApp, and in-app into one helpdesk with a RAG-based AI assistant for issue and dispute resolution — cutting first-response time from 4 minutes to under 10 seconds and monthly escalations from ~300 to under 50 within three months.
- Designed an in-product renewal and promotions engine (early-bird access, nudges, free-trial classes) that reduced assisted-renewal cost and generated Rs 70L in product-led renewals in a single month.
- Built a partner-wise P&L and performance tracker (weekly Net Revenue minus fixed, refund, marketing and sales cost) whose visibility drove interventions — profitable partners rose from 50 to 100 in a month and to 125 over the next two.

Assistant Product Manager

Sep 2022 – Aug 2023

- Rebuilt the seller/teacher-facing (supply-side) platform with real-time payouts automation, accurate payout summaries, and a consolidated self-service view of CRM, schedules, and performance — lifting partner NPS from -20 to +40.
- Automated enrolment, order-punching, and incentive workflows to near-full coverage and revamped the advisor CRM (lead navigation, calling, revenue and target tracking) — cutting operations workload 80% and saving Rs 1.6L/month.

Senior Product Analyst

Mar 2021 – Aug 2022

- Implemented customer-verification and KYC-style controls that reduced invalid or fraudulent transactions from 10% to 1% while keeping the flow self-serve and low-touch.
- Built SQL and Power BI dashboards (sourced from Metabase queries) giving Marketing, Sales, and Operations self-service visibility into performance and fulfillment metrics.

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, GA4, Power BI, MS Excel (Advanced), Python (basic)
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, RICE prioritization, Figma
- AI & Integration:** OpenAI / Gemini / Claude APIs, Claude Code, Prompt Engineering, RAG, REST APIs, Payment Integrations
