

KSHITIZ YADAV

Product Owner / Product Manager | Backlog Ownership, Prioritization & Sprint Delivery | Agile/Scrum | AI-Powered Ways of Working | DTC Mobile & Data-Driven
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Owner / Product Manager with 5+ years owning the backlog end-to-end — defining, grooming, and prioritizing work tied to product vision and business objectives across a direct-to-consumer (DTC) mobile app, LMS, and CRM. Runs Agile/Scrum (backlog refinement, sprint planning, acceptance criteria), uses data (dashboards, KPIs, A/B tests) to guide priorities, and brings genuine enthusiasm for AI tools into daily work — shipping production GenAI and using LLMs day-to-day. Energized by solving real user and business problems.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a consumer (DTC) EdTech marketplace connecting students and teachers via a shared LMS — mobile app, LMS, sales CRM, and an in-house AI layer — owning the backlog end-to-end and partnering daily with engineering.

Backlog Ownership & Agile Delivery

- Own the product backlog end-to-end — define, groom, and prioritize a well-structured backlog tied to product vision and business objectives, balancing features, enhancements, bug fixes, and technical debt with transparent, RICE-based prioritization communicated to stakeholders and the dev team.
- Lead backlog refinement and sprint planning and write precise, testable acceptance criteria, partnering with engineering to ensure delivered work meets agreed standards before release; stay available through the sprint to resolve ambiguity and keep the team unblocked.
- Track sprint and release progress and product metrics (dashboards, KPIs, A/B test results), using data to identify when priorities need to shift and adjusting quickly and proactively.

AI-Powered Ways of Working

- Bring AI tools into daily workflows — research, documentation, and experimentation — using LLMs (ChatGPT, Gemini, Claude) and prompt engineering; shipped a production GenAI layer and an NLP support chatbot, and encourage the team to explore new AI-driven solutions.
- Prototype flows in Figma with AI assistance (Adobe Express, Canva AI) to align engineering and stakeholders before build, translating technical detail for business stakeholders and vice versa.

DTC Mobile Product, Growth & Technical Delivery

- Led the 0→1 launch of a direct-to-consumer (DTC) mobile app MVP in 2 months and built the consumer LMS — raising course completion 15% and improving NPS.
- Drove 20% revenue growth and 25% ARPU expansion (₹35K → ₹45K) via the LPP module; re-architected the sign-up → enrolment funnel with single-step OTP and 6 API-integrated payment gateways (REST APIs) — using SDLC and basic system-architecture fluency to ask sharp questions and evaluate trade-offs with engineering.

CORE COMPETENCIES

Backlog Ownership, Refinement & Prioritization • Acceptance Criteria & Quality • Sprint Planning & Iteration • Agile/Scrum • Stakeholder Collaboration • Product Metrics, KPIs & A/B Testing • AI-Powered Ways of Working (LLMs, Prompt Engineering) • DTC Mobile Product • SDLC, APIs & System Architecture (working knowledge) • Data-Driven Prioritization • Jira • Confluence • Figma

TECHNICAL SKILLS & TOOLS

- Agile & Delivery:** Backlog management, sprint planning, backlog refinement, acceptance criteria, RICE prioritization, Agile/Scrum, JIRA, Confluence
- AI & Tech:** OpenAI / Gemini / Claude LLM APIs, Prompt Engineering, NLP use-cases, REST APIs, SDLC, basic system architecture
- Data & Analytics:** SQL, GA4, Power BI, A/B testing, MS Excel (Advanced), Python (basic)
- Design & Prototyping:** Figma, Adobe Express, Canva AI, wireframing, clickable prototypes

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
