

KSHITIZ YADAV

Product Manager | Growth, Monetization & Payments | Consumer, Marketplace & Platform Products | SQL, Analytics & APIs
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav
20% Revenue Growth • 25% ARPU Expansion (₹35K → ₹45K) • ₹70L Renewals in a Single Month • 80% Lower Ops Workload

PROFESSIONAL SUMMARY

Product Manager with 5+ years building growth, monetization, payments, and workflow-automation products across consumer apps, a two-sided marketplace, CRM, and internal platforms serving 150,000+ users. Progressed from Senior Product Analyst to Assistant Product Manager to Product Manager, owning discovery, PRDs, prioritization, launch, and iteration with engineering, design, and business teams. Combines SQL-led product analysis with hands-on execution across APIs, automation, and AI-assisted workflows.

CORE COMPETENCIES

Product Strategy & Roadmapping · Product Discovery & User Research · PRDs & Prioritization · Growth & Monetization · Pricing & Packaging · Retention & Lifecycle · Funnel & Conversion Optimization · Payments & API Integrations · Workflow Automation · Product Analytics & Insights · GTM & Product Launch · Marketplace & Platform Products · Unit Economics · Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

PlanetSpark — Gurugram

A B2C consumer marketplace (EdTech) connecting 150,000+ enrolled users with teachers via a shared LMS — spanning consumer app, two-sided platform, payments, CRM, renewals, and lifecycle products, with 30,000+ daily active users. Progressed across three roles while owning an expanding product surface.

Product Manager

Sep 2023 – Present

- Lead product planning and delivery across the full product suite — consumer app, student & teacher LMS, advisor CRM, renewal engine, and in-house AI layer — for a platform with 150,000+ users and 30,000+ daily active users, working with a cross-functional squad of engineering, design, and QA from discovery to launch.
- Designed an in-product renewal engine (nudges, early-bird access, LMS free-trial classes, teacher-initiated renewals) that reduced assisted-renewal cost and enabled ₹70L in product-led renewals in a single month (Jan 2025).
- Increased the share of surveyed users reporting 5/5 satisfaction from 10% to 25% by redesigning onboarding, consolidating student progress into a single-page view, and adding structured teacher feedback.
- Built a self-serve, product-led enrolment flow from scratch — post-demo course selection with best-fit ranking, single-step OTP, discounts, and 6 API-integrated payment gateways with auto-cleared approvals — letting customers purchase on their own; grew this new channel from 6% of leads at launch to 12% (at 95% payment success) over 12 months of iteration, reducing reliance on counselor- and teacher-assisted sales.
- Scaled a parallel teacher-led enrolment channel — teachers collect payment from customers during the demo session — growing its monthly revenue from ₹30L to ₹50L at ~20% conversion.
- Built an advisor-wise weekly P&L tracker (net revenue minus fixed, refund, marketing, and sales cost) whose visibility enabled targeted profitability interventions — profitable advisors rose from 50 to 100 in one month and to 125 over the next two.
- Shipped a production GenAI learning layer (age-appropriate speech/text responses) and launched a RAG-based support chatbot that cut first-response time from 4 minutes to under 10 seconds and monthly escalations from ~300 to under 50 within three months.
- Prototype and ship scoped product improvements with Claude Code (AI-assisted development), implementing and testing changes before raising merge requests for engineering review.

Assistant Product Manager

Sep 2022 – Aug 2023

- Built the LPP (Learn, Practice, Perform) module — customized 1:1 sessions, group activities, and performance tasks — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).
- Rebuilt the teacher LMS with real-time payout automation, accurate payout summaries, and consolidated CRM and class details — lifting teacher NPS from -20 to +40.
- Automated enrolment verification and incentive flows to 100% coverage and revamped the advisor CRM (lead navigation, calling, revenue & target tracking) — cutting operations workload 80% and saving ₹1.6L/month.
- Launched organic acquisition loops surfacing student progress (Sparkline, Word Wisdom, practice classes, workshops) across social channels, bringing 2,000+ organic leads/month at a 7% conversion rate.

Senior Product Analyst

Mar 2021 – Aug 2022

- Built SQL and Power BI dashboards across acquisition, revenue, and operations, replacing fragmented weekly reporting with a consistent performance view used by product and commercial teams.
- Implemented customer-verification controls that reduced invalid or fraudulent transactions from 10% to 1% while minimizing manual intervention.

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, GA4, Power BI, MS Excel (Advanced), Python (basic)
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, RICE prioritization, Figma
- AI & Integration:** OpenAI / Gemini / Claude APIs, Claude Code, RAG, REST APIs, Payment Integrations

EDUCATION & PORTFOLIO

BBA — Chandigarh University, Chandigarh

2018 – 2021
