

KSHITIZ YADAV

Product Manager | Product Strategy & Vision | User Stories, Epics & Requirements | Guest/User Research & Behavioral Analytics | Scrum, Cross-Functional & Data-Driven
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years developing and executing product strategy for consumer experiences — translating product concepts into user stories, epics, requirement documents, and acceptance criteria, and shipping with cross-functional teams. Uses user research and behavioral analytics for data-driven decisions, runs scrum ceremonies to guide priorities and unblock the team, and mentors newer members. Manages multiple projects at once; track record of 20% revenue growth and ₹70L in product-led renewals.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a consumer marketplace connecting students and teachers via a shared LMS — consumer app, LMS, sales CRM, and an in-house AI layer — shaping the customer experience across surfaces, partnering with cross-functional teams, and mentoring newer team members.

Growth & Monetization

- Built the LPP (Learn, Practice, Perform) module — customized 1:1 sessions, group activities, and performance tasks — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).
- Designed an in-product renewal engine (nudges, early-bird access, LMS free-trial classes, teacher-initiated renewals) that lowered sales cost and generated ₹70L in renewals in a single month (Jan 2025).
- Launched organic acquisition loops surfacing student progress (Sparkline, Word Wisdom, practice classes, workshops) across social channels, bringing 2,000+ organic leads/month at a 7% conversion rate.
- Built a counselor-wise P&L tracker computing weekly profitability per sales counselor (Net Revenue – Fixed, Refund, Marketing & Sales cost), giving each counselor the revenue figure needed to turn profitable — putting unit-economics visibility in the hands of the front line.

Funnel & Platform (0→1)

- Re-architected the sign-up → demo → enrolment funnel: single-step OTP sign-in (replacing a two-step create-then-login flow), a preference-capture ranking model that surfaces best-fit courses during the counselor VC, 6 API-integrated payment gateways with pre-filled links, and auto-cleared parent-approval on payment — reducing drop-off across the sign-up, payment, and enrolment stages.
- Led the 0→1 launch of the consumer app MVP in 2 months (Feb–Mar 2024: ~1% organic revenue, +10% engagement); built the Student LMS (live classes, feedback reports, PTMs, in-house meeting room), raising course completion 15% and improving NPS.

AI, Design & Automation

- Designed prototypes and MVP interfaces for the app, LMS, and CRM in Figma, Adobe Express, and Canva AI — using Gemini, Claude, ChatGPT, and Codex to accelerate iteration into clickable flows that aligned engineering and stakeholders before build.
- Shipped a production GenAI layer (speech/text learning with contextual, age-appropriate responses) and a support chatbot that cut escalations; revamped the Sales CRM (lead navigation, integrated calling, revenue tracking, target-vs-achievement, incentive management), cutting sales-ops workload 80%.
- Automated incentive flows and enrolment verification (100% coverage), saving ₹1.6L/month and eliminating fake-revenue reporting.

CORE COMPETENCIES

Product Strategy & Vision • Product Management • Cross-Functional Collaboration & Strategic Alignment • User Stories, Epics & Requirement Documents • Acceptance Criteria & Test Cases • User/Guest Research & Behavioral Analytics • Data-Driven Decision-Making • Feature Approvals & Compliance Sign-off (Finance, Legal, Privacy, Security) • Scrum Ceremonies, Prioritization & Removing Roadblocks • Mentoring & Informal Guidance to New Team Members • Managing Multiple Projects • Problem-Solving, Communication & Stakeholder Management

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, GA4, Power BI, behavioral analytics, A/B testing, MS Excel (Advanced), Python (basic)
- Product & Delivery:** User stories, epics, requirement docs, acceptance criteria/test cases, roadmap, RICE prioritization, JIRA, Confluence, Agile/Scrum
- Research & UX:** User/guest research, journey mapping, Figma, wireframing, clickable prototypes
- AI & Integration:** OpenAI / Gemini / Claude APIs, Prompt Engineering, REST APIs, NLP use-cases

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
