

KSHITIZ YADAV

Product Manager | Digital Product Strategy & Delivery | Agile/JIRA | SQL & BI Analytics | Customer Journeys | Gurugram
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years owning the product development lifecycle end-to-end — from concept and requirements to release — for B2C digital products at a high-growth startup, based in Gurugram. Defines product strategy and roadmap, runs delivery in Agile / JIRA (backlog management, feature-team support), and makes insight-led, data-driven decisions using SQL, Power BI dashboards, and funnel / MI analysis. Strong customer-journey mindset, stakeholder management across business, technology, risk and operations, and commercial acumen — with a record of 20% revenue growth, 25% ARPU expansion, and ₹70L in product-led renewals. Uses AI-enabled tools to sharpen backlog quality, analysis, and documentation.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram · Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Product Strategy & Delivery (concept → launch)

- Own the product development lifecycle end-to-end for a B2C product suite — defining product strategy, requirements, and roadmap, running delivery in Agile / JIRA with backlog management and feature-team support, and producing governance-ready updates for cross-functional stakeholders.
- Led the 0→1 launch of a consumer app MVP in 2 months and re-architected the sign-up → demo → enrolment customer journey (single-step OTP, preference ranking model, 6 payment gateways), assessing the journey end-to-end to identify pain points and reduce drop-off.

Analytical & Data-Driven Decisions

- Built insight-driven Power BI and SQL dashboards (funnel data, performance trends, MI) for Marketing, Sales, and Operations, using analytical, insight-led decision-making to identify issues and opportunities and benchmark against goals.
- Ran market research and competitor analysis to shape product propositions; used data to make decisions and recommendations that drove 20% revenue growth and 25% ARPU expansion (₹35K → ₹45K), applying commercial and financial acumen (pricing, ROI).

Stakeholder, Risk & Customer-First

- Acted as the interface between business and functional stakeholders across technology, risk, and operations — using stakeholder management and structured problem solving to ship a customer verification (risk and control) flow that cut fake sales from 10% to 1%.
- Drove a customer-first approach — interpreting customer feedback and pain points into an in-product renewal engine (₹70L in a single month) — and used AI-enabled tools to improve backlog quality, analysis, and documentation while keeping accountability with Product.

CORE COMPETENCIES

Product Strategy & Roadmap · Product Development Lifecycle (Concept → Launch) · Delivery Discipline (Agile/Scrum, JIRA, Backlog Management) · Analytical & Data-Driven Decisions (SQL, Power BI, Funnel/MI) · Customer Journey & Pain-Points Analysis · Stakeholder Management & Cross-Functional Alignment (Business, Tech, Risk, Ops) · Market Trends & Competitor Analysis · Commercial & Financial Acumen (Pricing, ROI) · Risk & Control Awareness · Structured Problem Solving · Rapid Prototyping (Figma) · AI-Enabled Product Development

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, Power BI, MS Excel (Advanced), PowerPoint, GA4
- Delivery & Product:** JIRA, Confluence, Agile/Scrum, backlog management, RICE prioritization
- Design & Prototyping:** Figma, rapid prototyping, wireframing, clickable prototypes
- AI & Tools:** OpenAI / Gemini / Claude APIs, AI-enabled analysis & documentation

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018
