PROFESSIONAL EXPERIENCE

PlanetSpark — Gurugram

A B2C consumer marketplace (EdTech) connecting 150,000+ enrolled users with teachers via a shared LMS — spanning consumer app, two-sided platform, payments, CRM, renewals, and lifecycle products, with 30,000+ daily active users. Progressed across three roles while owning an expanding product surface.

Product Manager

Sep 2023 – Present

- Built and consolidated multi-channel customer communication — email, WhatsApp (Gupshup), in-app messaging, push, and SMS/OTP — into one system with a RAG-based assistant, cutting first-response time from 4 minutes to under 10 seconds and monthly escalations from ~300 to under 50.
- Designed a lifecycle and retention engine (nudges, early-bird access, a loyalty program, and an in-app wallet) that drove engagement and generated Rs 70L in product-led renewals in a single month.
- Increased activation and retention — the share of users rating the product 5 out of 5 rose from 10% to 25% — through onboarding journeys, lifecycle messaging, and loyalty.
- Re-architected the acquisition-to-conversion funnel (single-step OTP, ranking, 6 payment gateways) and ran A/B experiments to lift conversion and enable self-serve purchase.

Assistant Product Manager

Sep 2022 – Aug 2023

- Launched organic acquisition and engagement loops across social and messaging channels, bringing 2,000+ leads/month at a 7% conversion rate.
- Revamped the CRM (lead navigation, integrated calling, revenue and target tracking) and automated engagement and enrolment workflows, cutting operational workload 80% and saving Rs 1.6L/month.

Senior Product Analyst

Mar 2021 – Aug 2022

- Built SQL and Power BI dashboards and ran A/B experiments to read customer insights, optimize communication and funnel performance, and inform product decisions.
