

KSHITIZ YADAV

Product Manager | Generalist Owner — Customer, Ops & Pricing Surfaces | AI as a Daily Working Tool | Own-Your-Data (SQL, Analytics) | Ships Fast, End-to-End

Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Generalist Product Manager with 5+ years taking problems from a vague one-line brief to a shipped, measured outcome — customer-facing surfaces one quarter, an internal ops tool or a pricing problem the next. The owner of the outcome, not the coordinator. Pulls own numbers (SQL, analytics — or gets there with AI), sizes opportunities before asking engineering, and uses AI every day to move faster. Writing-first. Track record of 20% revenue growth and ₹70L in product-led renewals.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a consumer marketplace connecting students and teachers via a shared LMS — moving across customer-facing surfaces (app, LMS), internal ops tools (sales CRM, automation), pricing/monetization, and an in-house AI layer as priorities shift, accountable end-to-end for each.

Generalist End-to-End Ownership (Customer • Ops • Pricing)

- Pricing: built the LPP monetization module, restructuring pricing and value to drive 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and ₹70L in product-led renewals in a single month.
- Internal ops tool: revamped the Sales CRM and automated enrolment verification & incentive flows — saving the ops team significant manual work (sales-ops workload -80%, ₹1.6L/month) and cutting fake sales from 10% to 1%.
- Customer-facing surface: re-architected the sign-up → enrolment funnel (single-step OTP, best-fit ranking, 6 payment gateways) and led a 0→1 app MVP in 2 months — sizing the opportunity and defining success metrics up front, then instrumenting and reporting honestly.

AI as a Daily Working Tool (hard requirement — shown, not claimed)

- Use AI every day across the workflow: research & synthesis (competitor teardowns, user-interview analysis, market sizing), data (writing/debugging SQL, cleaning messy exports), and prototyping (a clickable mock in front of a stakeholder in a day, not a slide).
- Automate my own repetitive work, and build AI into shipped products — a production GenAI learning layer and an NLP support chatbot — with a clear view of where AI genuinely helps and where it will embarrass you.

Own-Your-Data, Shipping & Built-for-Myself

- Pull my own numbers (SQL via Metabase → Power BI dashboards, GA4, A/B testing) instead of waiting in an analyst queue; define success up front and report honestly when something does not work.
- Built the Career Intelligence Dashboard for myself — a live product that scrapes PM roles hourly, scores fit with a weighted model, and AI-tailors resumes, shipped solo and running in the cloud via a scheduled GitHub Action.

CORE COMPETENCIES

Generalist, Cross-Surface End-to-End Ownership (Customer-Facing, Internal Ops & Pricing) • Problem → Shipped, Measured Outcome • Track Record of Shipping (specific outcomes, with dates) • AI as a Daily Working Tool (Research, SQL, Prototyping, Automation) • Own-Your-Data (SQL, Metabase, Power BI, A/B Testing) • Opportunity Sizing & Success Metrics • Competitor Teardowns & User Research • Rapid Clickable Prototyping • Internal Tooling & Automation • Clear, Writing-First Communication (Specs, Decision Notes) • Pricing & Unit Economics • Stakeholder Management • Self-Built Tools & Side Projects • Marketplace

TECHNICAL SKILLS & TOOLS

- **AI (daily):** LLMs (ChatGPT/Gemini/Claude), Prompt Engineering — research synthesis, SQL debugging, prototyping, automation
- **Data & Analytics:** SQL, Metabase, Power BI, GA4, A/B testing, MS Excel (Advanced), Python (basic)
- **Product & Delivery:** PRDs, specs & decision notes, opportunity sizing, RICE prioritization, JIRA, Confluence, Agile/Scrum
- **Design & Build:** Figma, Adobe Express, Canva AI, clickable prototypes; built a live self-serve tool (GitHub Actions)

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
