

# KSHITIZ YADAV

Product Manager | Builds with AI (Claude Code) — Idea → Working Prototype Yourself | Owns Business KPIs (Revenue, Growth, Retention) | MVP/Iterative, Data-Driven | Hands-On Execution

Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

20% Revenue Growth • 25% ARPU Expansion (₹35K → ₹45K) • ₹70L Renewals in a Single Month • 80% Lower Ops Workload

## PROFESSIONAL SUMMARY

Product Manager with 5+ years in a startup, owning products end-to-end and driving business KPIs — revenue, growth, and retention. Builds with AI himself: uses Claude Code and LLMs to go from idea to a working prototype, internal tool, or automation in days, not weeks, instead of waiting on engineering for every build. Thinks in business logic first, works hands-on with engineering to debug integrations and validate what ships, and prioritizes with funnels, retention, and failure-rate data over anecdotes. Delivered 20% revenue growth, ₹70L in product-led renewals, and 80% lower ops workload.

## CORE COMPETENCIES

Build-With-AI (AI Coding Tools: Claude Code, LLMs): Idea → Working Prototype Yourself · AI-Automated Workflows, Automations & Internal Tools · Agentic, Multi-Step AI Automation & Tooling · Business Ownership — KPIs (Revenue, Growth, Retention) · MVP / Iterative (Plan, Release, Feedback, Iterate) · Business-Logic-First Product Rules (Pricing, Refunds, Terms) · Hands-On with Engineering (Integration Debugging, Data Quality) · Data-Driven Prioritization (Funnels, Retention, Failure Rates) · Vendor / Supplier & Stakeholder Communication · Direct Customer Interaction (Escalations, Support) · Product Documentation & User Stories · UI/UX for Prototypes (AI-Generated Mockups) · Product Management · Hands-On Execution

## PROFESSIONAL EXPERIENCE

### PlanetSpark — Gurugram

A B2C subscription marketplace (EdTech) connecting 150,000+ enrolled users with teachers via a shared LMS — spanning consumer app, two-sided platform, payments, CRM, renewals, and lifecycle products, with 30,000+ daily active users. Progressed across three roles while owning an expanding product surface.

#### Product Manager

Sep 2023 – Present

- Ship minor and mid-level product features using AI-assisted development (Claude Code) — scoping, implementing, and testing changes, and raising merge requests for engineering review.
- Shipped a production GenAI learning layer (age-appropriate speech/text responses) and a RAG-based support chatbot — cutting first-response time from 4 minutes to under 10 seconds and monthly escalations from ~300 to under 50 within three months.
- Re-architected the sign-up → demo → enrolment funnel — single-step OTP, a preference-capture ranking model, and 6 API-integrated payment gateways with pre-filled links and auto-cleared approvals — enabling self-serve, plan-based purchase with no manual intervention.
- Built an advisor-wise P&L tracker (weekly Net Revenue – Fixed, Refund, Marketing & Sales cost) whose visibility drove profitability interventions — profitable advisors rose from 50 to 100 in one month and to 125 over the next two.
- Own the full product suite — consumer app, student & teacher LMS, advisor CRM, renewal engine, and in-house AI layer — for a platform with 150,000+ enrolled users and 30,000+ daily active users, leading a cross-functional squad of 8 engineers and 2 QA from discovery to launch.

#### Assistant Product Manager

Sep 2022 – Aug 2023

- Automated enrolment verification and incentive flows to 100% coverage and revamped the advisor CRM (lead navigation, calling, revenue & target tracking) — cutting operations workload 80% and saving ₹1.6L/month.
- Built the LPP (Learn, Practice, Perform) module — customized 1:1 sessions, group activities, and performance tasks — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).

#### Senior Product Analyst

Mar 2021 – Aug 2022

- Developed SQL and Power BI reporting across growth, revenue, and operations; improved weekly revenue accuracy and created a data foundation for product and commercial decisions.

## TECHNICAL SKILLS & TOOLS

- Build-With-AI:** Claude Code, Claude/OpenAI/Gemini APIs, Prompt Engineering, RAG, AI-assisted prototyping & automation; Figma (AI mockups)
- Product & Delivery:** MVP/iterative, PRDs, user stories, product rules, RICE prioritization, JIRA, Confluence, Agile/Scrum
- Data & Integration:** SQL, GA4, Power BI, funnels/retention/failure-rate analysis, REST APIs, vendor/payment integrations & debugging

## EDUCATION & CERTIFICATIONS

BBA — Chandigarh University, Chandigarh

2018 – 2021

Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
