

KSHITIZ YADAV

Product Manager | B2C Growth & Monetization | CRO, Retention & Conversions | Consumer App & Web | Data-Driven | AI-Enabled

Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

B2C growth Product Manager with 5+ years driving revenue, conversion, and retention for consumer app and web products at a high-growth startup, based in Gurgaon. Owns the product roadmap end-to-end — conceptualizing features, building wireframes, and rolling them out to improve user experience and conversions (CRO). Derives insights from data (SQL, GA4, Power BI) and runs A/B testing to optimize funnels, retention, and revenue per user; leverages AI to build internal tools that drive operational efficiency. Record of 20% revenue growth, 25% ARPU expansion, ₹70L in product-led renewals, and 2,000+ organic leads/month at 7% conversion. Bias for action and strong stakeholder influence across marketing, sales, ops, finance, and tech.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Platform Optimization: Web/App, UX & Conversions (CRO)

- Led enhancement of consumer app and web flows for improved user experience and conversions: re-architected the sign-up → payment → enrolment funnel (single-step OTP, preference ranking model, 6 payment gateways) and launched the consumer app MVP in 2 months — working closely with designers and developers.
- Conceptualized and rolled out new features (building wireframes and clickable prototypes in Figma), improving engagement +10% and course completion 15%.

Growth, Retention & Monetization

- Developed a product roadmap driving revenue via CRO, retention, and higher revenue per user: built the LPP module and an in-product renewal engine — 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), 50% higher revenue per class (₹600 → ₹900), and ₹70L in renewals in a single month.
- Built consumer engagement features leveraging content and community (progress showcases, Sparkline, Word Wisdom, workshops), driving 2,000+ organic leads/month at a 7% conversion rate; ran market research and competitor analysis to inform strategic decisions.

Data, AI Tools & Cross-Functional Execution

- Used analytics and data insights (SQL, GA4, Power BI dashboards) and A/B testing to make informed decisions and measure product success across marketing, sales, operations, finance, and tech.
- Leveraged AI to build internal tools driving operational efficiency and scalability — a support chatbot, "Demo Analysis" (AI sales enablement), and automation saving ₹1.6L/month.

CORE COMPETENCIES

B2C Growth & Monetization • Conversion Rate Optimization (CRO) & Funnel • Retention & Lifecycle • Revenue per User (ARPU) • Product Roadmap & Feature Conceptualization • Wireframing & Prototyping (Figma) • Consumer Engagement (Content & Community) • A/B Testing & Experimentation • Data-Driven Decisions (SQL, GA4, Power BI) • AI-Built Internal Tools & Operational Efficiency • Market Trends & Competitor Analysis • Cross-Functional Collaboration (Marketing, Sales, Ops, Finance, Tech) • Stakeholder Management & Influence • Bias for Action & Ownership

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, GA4, Power BI, MS Excel (Advanced), Python (basic)
- Design & Prototyping:** Figma, wireframing, Adobe Express, Canva AI, clickable prototypes
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, RICE prioritization, A/B testing
- AI & Integration:** OpenAI / Gemini / Claude APIs, Prompt Engineering, AI-built internal tools

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018
