

KSHITIZ YADAV

Product Owner / Product Manager | AI/ML Product Development (LLMs, Prompt Design) | Experiments, POCs & Rapid Validation |
Backlog, Kanban & Sprint Delivery | Data & API-Fluent
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Applied, hands-on Product Owner / Product Manager with 5+ years shipping products end-to-end — and real exposure to AI/ML-driven products, from idea to production. Identifies high-impact AI opportunities, frames them as clear product problems, and validates fast through POCs and experiments, working shoulder-to-shoulder with engineers and data teams. Fluent enough in APIs, data pipelines, and system architecture to make sharp trade-offs; ships with LLMs and prompt design daily; and thrives in ambiguous, experimental environments.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the product suite of a consumer EdTech marketplace connecting students and teachers via a shared LMS — consumer app, LMS, sales CRM, and an in-house AI layer — building AI features end-to-end (discovery to production) alongside engineering and data teams.

AI/ML Product Development (Idea → Production)

- Identify high-impact AI opportunities and translate them into clear product problems and requirements — working hands-on with engineers and data teams to design and ship AI-powered features end-to-end.
- Shipped a production GenAI layer (contextual, age-appropriate speech/text learning) and an NLP support chatbot, and built 'Demo Analysis' — an AI feature that analyzes user behavior to surface ranked, personalized course plans — participating in prompt design and iterating on model outputs.
- Prototype and validate ideas quickly through lightweight POCs and experiments (A/B testing), defining success metrics and continuously measuring product performance.

Backlog, Delivery & Technical Fluency

- Own and prioritize the product backlog and drive execution in an Agile/Scrum and Kanban sprint cadence — writing clear, structured product requirements that balance technical feasibility with business value.
- Comfortable across APIs, data pipelines, and system architecture at a high level — integrated 6 payment-gateway APIs (REST) and built data pipelines from Metabase SQL into Power BI dashboards for marketing, sales, and operations.
- Act as a trusted bridge between product, engineering, and stakeholders — aligning AI initiatives with product strategy, documenting learnings, and building reusable internal playbooks.

Growth & Business Impact

- Built the LPP (Learn, Practice, Perform) monetization module driving 20% revenue growth and 25% ARPU expansion (₹35K → ₹45K), plus ₹70L in product-led renewals in a single month.
- Led the 0→1 launch of the consumer app MVP in 2 months and re-architected the sign-up → enrolment funnel (single-step OTP, preference-based ranking model, 6 payment gateways) to reduce drop-off.

CORE COMPETENCIES

AI/ML Product Development (Idea → Production) • LLMs & Prompt Design • Experiments, POCs & Rapid Validation • Problem-Framing & Analytical Thinking • Product Requirements (Feasibility vs. Business Value) • Backlog Prioritization (Kanban + Sprint) • APIs, Data Pipelines & System Architecture (high-level) • Success Metrics & Product Performance • Engineering & Data Collaboration • Stakeholder Management & Alignment • AI Tooling & Research • Playbooks & Documentation

TECHNICAL SKILLS & TOOLS

- AI & ML:** OpenAI / Gemini / Claude LLM APIs, Prompt Design/Engineering, NLP use-cases, ranking & recommendation models, model experimentation
- Product & Delivery:** PRDs / structured requirements, backlog prioritization (RICE), Agile/Scrum, Kanban, POCs, JIRA, Confluence
- Data & Integration:** SQL, Metabase, Power BI, GA4, A/B testing, REST APIs, data pipelines (high-level)
- Design & Prototyping:** Figma, Adobe Express, Canva AI, wireframing, rapid prototypes

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
