

KSHITIZ YADAV

Product Manager | Product Development & Delivery | Payments & Multi-Gateway Integration | Agile/JIRA | Legacy Modernization
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years spanning product development, delivery, and payments — translating product strategy and roadmaps into technical capabilities and release plans with Engineering, Operations, and business stakeholders. Built and integrated a multi-gateway payment capability (6 gateways: Razorpay, PayU, PayGlocal, PayPal, Bajaj) for payment creation and status verification, and modernized legacy flows through re-architecture and automation. Runs delivery in Agile / JIRA with performance metrics (throughput, quality, predictability), navigates ambiguity to make trade-offs, and drives execution at scale — with a record of 20% revenue growth, 25% ARPU expansion, ₹70L in renewals, and ₹1.6L/month in automation savings.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram · Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Payments & Capability Integration

- Built and integrated a multi-gateway payment capability — 6 gateways (Razorpay, PayU, PayGlocal, PayPal, Bajaj) via their APIs for payment creation and status verification — as a shared capability powering enrolment across the app, LMS, and CRM.
- Participated in discovery and envisioning of new payment and enrolment flows; drove definition and refinement of capabilities, features, and user stories with success criteria, working with Engineering and Operations to deliver robust technical solutions.

Delivery, Modernization & Metrics

- Developed and executed a delivery strategy to modernize legacy flows: re-architected the sign-up → payment → enrolment funnel and migrated manual backend revenue-punching to automation (100%→5%, then 60%→2%), replacing a third-party video platform with a resilient in-house one — improving predictability, throughput, and quality.
- Established delivery and performance metrics across Marketing, Sales, and Operations via Power BI / SQL dashboards, monitoring incremental value delivery and driving change through data.

Strategy, Stakeholders & Scale

- Acted as the bridge between technical teams and business stakeholders — translating product strategy and roadmaps into actionable delivery plans, navigating ambiguity to make trade-offs, and driving execution at scale across cross-functional teams.
- Led and trained a team of 8, driving transformational initiatives (funnel re-architecture, ₹1.6L/month automation savings, ₹70L renewals in a single month) with analytical, structured problem solving.

CORE COMPETENCIES

Product Development & Delivery · Payments & Multi-Gateway Integration · Translating Product Strategy → Technical Capabilities · Release Planning & Roadmaps · Agile/Scrum & JIRA Delivery · User Stories, Features & Success Criteria · Legacy Modernization & Automation · Delivery & Performance Metrics (Throughput, Quality, Predictability) · Stakeholder Management & Technical-Business Bridge · Analytical & Structured Problem Solving · Execution at Scale · Team Leadership

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, Power BI, GA4, MS Excel (Advanced), PowerPoint
- Payments & Integration:** Multi-gateway payments (Razorpay, PayU, PayGlocal, PayPal, Bajaj), REST APIs, payment creation & status verification
- Delivery & Product:** JIRA, Confluence, Agile/Scrum, backlog & release management, RICE
- AI & Tools:** OpenAI / Gemini / Claude APIs, prompt engineering

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024)
- JIRA Certification — Udemy (2024)
