

KSHITIZ YADAV

Product Manager | AI-First PM | Monetization & Subscription Models | API-Driven Workflows & Automation | SQL & BI
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years spanning product monetization, backend automation, and AI-first product management at a high-growth B2C platform. Built subscription and renewal monetization (LPP module, in-product renewal engine) and integrated 6 payment gateways via their APIs (payment creation and status verification) as reusable capabilities across the app, LMS, and CRM. Data-driven (SQL, Power BI) and a genuine AI-first PM — uses Generative AI across discovery, specs, and documentation and critically evaluates AI outputs for quality. Partners deeply with engineering and non-technical business stakeholders to translate complex models into system requirements and automated workflows.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram · Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Monetization & Subscription Models

- Built subscription and renewal monetization - the LPP module and an in-product renewal engine - driving 20% revenue growth, 25% ARPU expansion (Rs 35K to Rs 45K), and Rs 70L in product-led renewals in a single month; translated pricing and packaging models into product and system requirements.
- Built a counselor-wise P&L tracker computing weekly profitability (Net Revenue minus Fixed, Refund, Marketing, and Sales cost), partnering with finance and operations on revenue accuracy.

API Workflows, Automation & Backend Systems

- Integrated 6 payment gateways (Razorpay, PayU, PayGlocal, PayPal, Bajaj) via their APIs for payment creation and status verification - a reusable capability across the app, LMS, and CRM.
- Automated backend revenue-punching and enrolment verification end-to-end (manual punching 100% to 2%; 100% verification coverage), working with engineering on scalable automated workflows and saving Rs 1.6L/month.

Data, Reporting & AI-First Product Management

- Built SQL and Power BI dashboards (from Metabase queries) passing accurate usage and revenue metrics into business reporting, and used data to catch discrepancies and drive decisions.
- Practices AI-first PM: shipped production Generative AI features and uses OpenAI, Gemini, and Claude across discovery, technical specifications, and documentation - critically evaluating AI-generated outputs for correctness and business alignment.

CORE COMPETENCIES

AI-First Product Management (GenAI across the lifecycle) · Monetization & Subscription Models · API-Driven Workflows & Integrations · Backend Systems, Automation & System Requirements · SQL & BI Tools (Power BI, Metabase) · Data-to-Reporting Pipelines · Product Strategy & Roadmap · Cross-Functional Delivery (Engineering, Finance, Business) · Technical Specifications & Documentation · Deal & Sales Support · Strategic Thinking · Relational Data & Metrics

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, complex relational databases, Power BI, Metabase, GA4, MS Excel (Advanced)
- Platform & Integration:** REST APIs, API-driven workflows, third-party integration, backend automation
- AI & GenAI:** OpenAI / Gemini / Claude APIs, Prompt Engineering, AI-first PM workflow, evaluating AI outputs
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, technical specifications, roadmap

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024)
- JIRA Certification — Udemy (2024)
