

KSHITIZ YADAV

Product Manager | Vision, Strategy, Roadmap & OKRs | Backlog Ownership & Agile Ceremony Leadership | Customer Journey, Product Analytics & Health Monitoring | Cross-Functional, Data-Driven
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years owning the vision, strategy, roadmap, OKRs, and backlog for a product area — translating customer and business needs into user stories, product requirements, and success metrics. Leads Agile ceremonies, owns the customer journey and user experience, and makes data-driven feature trade-off decisions with engineering, design, and analytics partners. Establishes product KPIs and monitors product health and business impact. Track record of 20% revenue growth and ₹70L in product-led renewals.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a consumer marketplace connecting students and teachers via a shared LMS — consumer app, LMS, sales CRM, and an in-house AI layer — owning vision, roadmap, OKRs, and backlog, and leading Agile ceremonies with engineering, design, and analytics partners.

Growth & Monetization

- Built the LPP (Learn, Practice, Perform) module — customized 1:1 sessions, group activities, and performance tasks — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).
- Designed an in-product renewal engine (nudges, early-bird access, LMS free-trial classes, teacher-initiated renewals) that lowered sales cost and generated ₹70L in renewals in a single month (Jan 2025).
- Launched organic acquisition loops surfacing student progress (Sparkline, Word Wisdom, practice classes, workshops) across social channels, bringing 2,000+ organic leads/month at a 7% conversion rate.
- Built a counselor-wise P&L tracker computing weekly profitability per sales counselor (Net Revenue – Fixed, Refund, Marketing & Sales cost), giving each counselor the revenue figure needed to turn profitable — putting unit-economics visibility in the hands of the front line.

Funnel & Platform (0→1)

- Re-architected the sign-up → demo → enrolment funnel: single-step OTP sign-in (replacing a two-step create-then-login flow), a preference-capture ranking model that surfaces best-fit courses during the counselor VC, 6 API-integrated payment gateways with pre-filled links, and auto-cleared parent-approval on payment — reducing drop-off across the sign-up, payment, and enrolment stages.
- Led the 0→1 launch of the consumer app MVP in 2 months (Feb–Mar 2024: ~1% organic revenue, +10% engagement); built the Student LMS (live classes, feedback reports, PTMs, in-house meeting room), raising course completion 15% and improving NPS.

AI, Design & Automation

- Designed prototypes and MVP interfaces for the app, LMS, and CRM in Figma, Adobe Express, and Canva AI — using Gemini, Claude, ChatGPT, and Codex to accelerate iteration into clickable flows that aligned engineering and stakeholders before build.
- Shipped a production GenAI layer (speech/text learning with contextual, age-appropriate responses) and a support chatbot that cut escalations; revamped the Sales CRM (lead navigation, integrated calling, revenue tracking, target-vs-achievement, incentive management), cutting sales-ops workload 80%.
- Automated incentive flows and enrolment verification (100% coverage), saving ₹1.6L/month and eliminating fake-revenue reporting.

CORE COMPETENCIES

Product Vision, Strategy & Roadmap • Product Lifecycle & Feature Management • OKR Definition, Alignment & Measurement • Product Backlog Ownership & Prioritization • Agile Ceremony Leadership • User Stories & Product Requirements (Functional & Technical) • Customer Journey & UX Management • Cross-Functional Leadership & Stakeholder Alignment • Collaboration with Engineering & Technical Teams • Data-Driven Decision-Making • Product Analytics, Success Metrics & Product Health Monitoring • Feature Trade-off Analysis & Delivery Execution • Product Marketing, Competitive & Market Analysis • Experimentation, Customer Research & Change Management

TECHNICAL SKILLS & TOOLS

- Product & Delivery:** Vision/strategy/roadmap, OKRs, backlog ownership & prioritization, user stories, functional/technical requirements, Agile ceremonies, JIRA, Confluence
- Analytics & Data:** SQL, GA4, Power BI, product analytics & KPIs, A/B testing/experimentation, MS Excel (Advanced), Python (basic)
- Research & UX:** Customer journey mapping, customer research, competitive & market analysis, Figma, wireframing, clickable prototypes
- AI & Integration:** OpenAI / Gemini / Claude APIs, Prompt Engineering, REST APIs, NLP use-cases

EDUCATION

BBA — Chandigarh University, Chandigarh
Class XII (ISC), St. Thomas High School, Kanpur

2019 – 2021
2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
