PROFESSIONAL SUMMARY

Product Manager with 5+ years driving product strategy, roadmap, and full lifecycle management — from requirement gathering through launch, enhancement, and adoption. Has built and shipped collaboration and communication products: an in-house video-call platform, an omnichannel customer-communication system (calling, WhatsApp, email, chatbot), and integrations with telephony (Exotel, Servetel, Tata Tele) and live-video providers (Daily.co, 100ms, Convin). Runs Agile ceremonies with engineering, translates customer needs into product requirements and enhancements, tracks adoption and KPIs, and partners cross-functionally across sales, marketing, and operations. Strong analytical, presentation, and stakeholder-management skills.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

Collaboration & Communication Products

- Built an in-house video-call platform (replacing a third-party vendor) used by the Sales org, and an omnichannel customer-communication system consolidating calling, WhatsApp, email, and chatbot into a single system — improving customer experience and cutting external platform costs.
- Owned the lifecycle of telephony and live-video integrations end-to-end — Exotel, Servetel, Tata Tele (calling); Daily.co, 100ms (live classes); Convin (video counselling & recording) — from requirement gathering through implementation, adoption, and ongoing maintenance.

Product Strategy, Agile Delivery & Documentation

- Drove product strategy, roadmap, and requirement gathering and prioritization from customer feedback, sales input, and market insights; ran Agile ceremonies (standups, sprint planning, reviews, retrospectives, and product demonstrations) with engineering to deliver features and enhancements on time.
- Monitored product performance, adoption, and business KPIs via SQL and Power BI dashboards, and maintained product documentation, workflows, and user guides.

Cross-Functional GTM, Market & Growth

- Partnered across sales, marketing, operations, and finance on product positioning, go-to-market, and launches; translated customer requirements into enhancements and business cases, and addressed queries on product capabilities, integrations, and roadmap.
- Tracked market trends and competitor offerings and drove revenue growth (20%), ARPU expansion (25%), and Rs 70L in product-led renewals — with strong analytical, presentation, and stakeholder-management skills.
