

KSHITIZ YADAV

Product Manager | 0-1 Product Building | Technical Solutioning & System Integration | Cross-Functional Execution |

Gurugram

Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years owning high-impact, cross-functional projects end-to-end — from scoping to execution — at a high-growth startup, based in Gurugram. Comfortable going deep with engineering on technical solutioning: translating business requirements into scalable functional flows and stitching together systems and third-party integrations. Led 0-1 product builds (consumer app MVP in 2 months) and complex integrations (6 payment gateways, in-house platforms) with Engineering, Operations, and external partners. Sharp problem-solver with high ownership in fast, unstructured environments — record of 20% revenue growth, 25% ARPU expansion, ₹70L in renewals, and ₹1.6L/month in automation savings.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

0-1 Building & Technical Solutioning

- Led 0-1 product builds end-to-end from scoping to execution: launched the consumer app MVP in 2 months and re-architected the sign-up → payment → enrolment flow — going deep with engineering on technical solutioning and scalable functional flows.
- Stitched together systems and third-party integrations: integrated 6 payment gateways via their APIs, built an omnichannel support system consolidating multiple channels, and replaced a third-party platform with an in-house one.

Cross-Functional Execution & Integration

- Owned high-impact, cross-functional projects with Engineering, Operations, and Product plus external partners (payment, messaging, and telephony vendors) — ensuring seamless integration and rollout of technical solutions.
- Translated business requirements into scalable solutions and automated backend workflows (manual punching 100%→2%), reducing manual intervention and saving ₹1.6L/month.

Problem Solving, Data & Impact

- Applied sharp logical and problem-solving skills with data (SQL and Power BI dashboards) to identify bottlenecks and drive decisions in a fast, unstructured environment.
- Drove business impact with high ownership: 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and ₹70L in renewals in a single month.

CORE COMPETENCIES

0-1 Product Building • Technical Solutioning & System Integration • Business Requirements → Scalable Functional Flows • Cross-Functional Execution (Engineering, Ops, Product) • Third-Party / External Partner Integration • End-to-End Project Ownership (Scoping → Execution) • Problem Solving & Logical Reasoning • Data-Driven Decisions (SQL, Power BI) • Automation & Process Efficiency • High Ownership & Bias for Action • Stakeholder Management • Agile/Scrum

TECHNICAL SKILLS & TOOLS

- **Data & Analytics:** SQL, Power BI, GA4, MS Excel (Advanced), Python (basic)
- **Tech & Integration:** REST APIs, third-party API integration, backend systems, workflow automation
- **Product & Delivery:** JIRA, Confluence, Agile/Scrum, product requirements, RICE prioritization
- **AI & Tools:** OpenAI / Gemini / Claude APIs, prompt engineering

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024)
- JIRA Certification — Udemy (2024)
