

KSHITIZ YADAV

AI-First Product Manager | LLMs, AI Agents, RAG & Workflow Automation | Growth, Monetization & Retention | Ships with Claude Code

Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

20% Revenue Growth • 25% ARPU Expansion (₹35K → ₹45K) • ₹70L Renewals in a Single Month • 80% Lower Ops Workload

PROFESSIONAL SUMMARY

AI-first Product Manager with 5+ years building growth, monetization, and workflow-automation products for a consumer marketplace serving 150,000+ users — with a track record of using LLMs, RAG, and AI agents to solve real business problems, not bolt on features. Ships production AI-enabled products and mid-level product changes end-to-end with Claude Code, and treats emerging technologies as a way to create fundamentally better user experiences and unlock new product opportunities. Owns discovery, PRDs, prioritization, success metrics, and launch with engineering, design, and GTM teams, using SQL and analytics as force-multipliers.

CORE COMPETENCIES

AI-First Product Strategy • LLMs, AI Agents & RAG • Prompt Engineering • Workflow Automation • Machine Learning Concepts • Product Vision & Roadmapping • Product Discovery & User Research • PRDs & Prioritization • Success Metrics & Product Adoption • Growth, Monetization & Retention • Experimentation (A/B Testing) • Payments & API Integrations • Product Analytics • GTM & Product Launch • Product Management • Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

PlanetSpark — Gurugram

A B2C subscription marketplace (EdTech) connecting 150,000+ enrolled users with teachers via a shared LMS — spanning consumer app, two-sided platform, payments, CRM, renewals, and lifecycle products, with 30,000+ daily active users. Progressed across three roles while owning an expanding product surface.

Product Manager

Sep 2023 – Present

- Own the full product suite — consumer app, student & teacher LMS, advisor CRM, renewal engine, and in-house AI layer — for a platform with 150,000+ enrolled users and 30,000+ daily active users, leading a cross-functional squad of 8 engineers and 2 QA from discovery to launch.
- Shipped a production GenAI learning layer (age-appropriate speech/text responses) and a RAG-based support chatbot — cutting first-response time from 4 minutes to under 10 seconds and monthly escalations from ~300 to under 50 within three months.
- Ship minor and mid-level product features using AI-assisted development (Claude Code) — scoping, implementing, and testing changes, and raising merge requests for engineering review.
- Re-architected the sign-up → demo → enrolment funnel — single-step OTP, a preference-capture ranking model, and 6 API-integrated payment gateways with pre-filled links and auto-cleared approvals — enabling self-serve, plan-based purchase with no manual intervention.
- Designed an in-product renewal engine (nudges, early-bird access, LMS free-trial classes, teacher-initiated renewals) that reduced assisted-renewal cost and generated ₹70L in product-led renewals in a single month (Jan 2025).
- Built an advisor-wise P&L tracker (weekly Net Revenue – Fixed, Refund, Marketing & Sales cost) whose visibility drove profitability interventions — profitable advisors rose from 50 to 100 in one month and to 125 over the next two.

Assistant Product Manager

Sep 2022 – Aug 2023

- Built the LPP (Learn, Practice, Perform) module — customized 1:1 sessions, group activities, and performance tasks — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and 50% higher revenue per class (₹600 → ₹900).
- Automated enrolment verification and incentive flows to 100% coverage and revamped the advisor CRM (lead navigation, calling, revenue & target tracking) — cutting operations workload 80% and saving ₹1.6L/month.

Senior Product Analyst

Mar 2021 – Aug 2022

- Developed SQL and Power BI reporting across growth, revenue, and operations; improved weekly revenue accuracy and created a data foundation for product and commercial decisions.

TECHNICAL SKILLS & TOOLS

- AI & Automation:** OpenAI / Gemini / Claude LLM APIs, Claude Code (AI agents), Prompt Engineering, RAG, Machine Learning, Workflow Automation
- Data & Analytics:** SQL, GA4, Power BI, MS Excel (Advanced), Python (basic)
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, RICE prioritization, Figma, REST APIs, Payment Integrations

EDUCATION & CERTIFICATIONS

BBA — Chandigarh University, Chandigarh

2018 – 2021

Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
