

KSHITIZ YADAV

Product Manager | Data Management, Reporting & Internal Enterprise Tools | Cost, Performance & Profit Tracking | Analytical & Quantitative | Stakeholder-Driven

Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years building data management and internal enterprise features end-to-end — from ideation and validation to launch and adoption. Strongly analytical and quantitative: defines, collects, and analyses metrics, and builds real-time cost, performance, and profit tracking (P&L dashboards). Works closely with engineers and data teams, manages conflicting stakeholder priorities, and grounds decisions in research and market analysis. Quick to learn new technologies. Track record of 20% revenue growth and ₹70L in product-led renewals.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a consumer marketplace connecting students and teachers via a shared LMS — including its internal enterprise tooling (sales CRM, data & reporting) and an in-house AI layer — collaborating with engineers and data teams and managing stakeholders across the business.

Data Management, Reporting & Cost/Performance/Profit Tracking

- Built a counselor-wise P&L tracker giving a real-time view of cost, performance, and profit per counselor (Net Revenue – Fixed, Refund, Marketing & Sales cost) — the same 'central hub of cost & profit' logic that saves front-line teams time.
- Defined enterprise reporting and metrics: Power BI dashboards from Metabase SQL for Marketing, Sales, and Operations, plus a CRM with revenue tracking and target-vs-achievement — defining, collecting, and analysing the metrics that inform product and business success.
- Managed data and attribution flows across a centralized CRM (UTM/cookie-based lead attribution), giving clean, structured data for decision-making.

Product Craft: Ideation → Launch → Adoption

- Led features end-to-end — ideation, vision, validation, technical development, launch, and continued adoption — driving product development with engineers: the 0→1 consumer app MVP (2 months) and a re-architected sign-up → enrolment funnel.
- Integrated usability studies, customer research, and market/competitive analysis into clear product requirements, and prioritized features with stakeholders against business priorities.

Stakeholders, Analytics & AI

- Partnered with internal and external stakeholders — finance (unit economics), engineering, operations, and third-party partners — managing conflicting requirements and priorities across teams.
- Applied a quantitative approach (SQL, A/B testing, GA4) and shipped a production GenAI layer plus automation that cut operational workload 80% — comfortable trying and quickly learning new technologies.

CORE COMPETENCIES

Product Management • Ideation, Vision & Validation • Data Management & Internal Enterprise Tooling/Features • Cost, Performance & Profit Tracking (Real-Time Dashboards) • Reporting & Metrics Definition, Collection & Analysis • Feature Prioritization & Roadmap • Stakeholder Collaboration & Conflicting Priorities • Usability Studies, Research & Market Analysis • Product Requirements • Ideation → Launch → Adoption • Collaboration with Engineers & Data Scientists • Analytical & Quantitative Problem-Solving • Quick to Learn New Technologies

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, Metabase, Power BI, GA4, A/B testing, real-time dashboards & metrics, MS Excel (Advanced), Python (basic)
- Product & Delivery:** Ideation-to-launch, product requirements, feature prioritization (RICE), roadmap, PRDs, JIRA, Confluence, Agile/Scrum
- Research & Stakeholders:** Usability studies, customer & market research, competitive analysis, stakeholder management
- AI & Integration:** OpenAI / Gemini / Claude APIs, Prompt Engineering, REST APIs, data & attribution flows

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
