PROFESSIONAL EXPERIENCE

PlanetSpark — Gurugram

Progressed across three roles while owning an expanding product surface.

Product Manager

Sep 2023 – Present

- Re-architected the full funnel from acquisition to conversion — single-step OTP, a preference-capture ranking and personalization model, and 6 API-integrated payment gateways — lifting conversion and enabling self-serve, plan-based purchase.
- Designed the renewal and monetization engine (nudges, early-bird access, a loyalty program, and an in-app wallet) that generated Rs 70L in product-led renewals in a single month and improved retention.
- Raised activation and satisfaction — the share of users rating the product 5 out of 5 rose from 10% to 25% through onboarding and lifecycle work.
- Built a product-KPI and P&L tracker, running funnel diagnostics and segmentation in SQL and Power BI to find drop-offs and growth opportunities.

Assistant Product Manager

Sep 2022 – Aug 2023

- Owned pricing, packaging, and upsell for a price-sensitive market (segment-wise minimum ARPU and phased increases) — driving 20% revenue growth and 25% ARPU expansion (Rs 35K to Rs 45K).
- Built organic acquisition and growth loops (student-progress showcases across social channels) bringing 2,000+ leads/month at a 7% conversion rate, and trained and led a team.

Senior Product Analyst

Mar 2021 – Aug 2022
