

KSHITIZ YADAV

Product Manager | AI-Native & Conversational AI Products | End-to-End Ownership (Growth & Revenue) | GTM Strategy | Thrives in Ambiguity, Full Ownership
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years at a product company owning an entire product end-to-end — with growth and revenue targets. Ships AI-native and conversational-AI products, does hands-on user research, defines and prioritizes requirements, and drives GTM and growth strategy. Comfortable with SQL and basic programming, works directly with engineers and UX, and thrives in ambiguous, fast-moving environments where full ownership is the default. Track record of 20% revenue growth and ₹70L in product-led renewals.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a consumer marketplace connecting students and teachers via a shared LMS — consumer app, LMS, sales CRM, and an in-house AI layer — taking full ownership of product areas end-to-end and working directly with engineers and UX in a fast-moving startup environment.

AI-Native & Conversational AI Products

- Shipped a production GenAI layer (contextual, age-appropriate speech/text learning) and a conversational NLP support chatbot, and built 'Demo Analysis' — an AI feature that analyzes user behavior to surface ranked, personalized plans — using LLM APIs and prompt engineering.
- Work directly with engineers and UX to define, prioritize, and ship product requirements, moving from problem to prototype fast with AI-assisted PRDs and clickable mocks.

End-to-End Ownership, Growth & GTM

- Took full ownership of an entire product with growth and revenue targets: built the LPP monetization module (20% revenue growth, 25% ARPU expansion ₹35K → ₹45K) and an in-product renewal engine (₹70L renewals in a single month).
- Drove GTM and growth strategy — launched organic acquisition loops bringing 2,000+ leads/month at 7% conversion, and re-architected the sign-up → enrolment funnel to reduce drop-off.
- Pulled my own data (SQL via Metabase → Power BI, GA4, A/B testing) for data-driven decisions instead of waiting on an analyst.

Enterprise Tooling, Automation & Ownership

- Built internal enterprise platform tooling 0→1 — a Sales CRM, an in-house video-call platform (replacing a vendor), and automation (enrolment verification, incentive flows) — cutting sales-ops workload 80% and fake sales from 10% to 1%.
- Operated with high autonomy in an ambiguous, fast-moving setting — took unprompted initiative, owned outcomes end-to-end, and mentored newer team members.

CORE COMPETENCIES

AI-Native Product Development • Conversational AI / GenAI Products • Product Management • End-to-End Product Ownership (Growth & Revenue Targets) • GTM Strategy • Growth Strategy & Experimentation • User Research & Requirements Prioritization • Enterprise & Internal Platform Products/Tooling • SQL & Basic Programming (Python, REST APIs) • Cross-Functional Delivery (AI Engineers, UX, Product Owner) • Comfort with Ambiguity & Full Ownership • Startup Experience • Data-Driven Decision-Making

TECHNICAL SKILLS & TOOLS

- AI & Programming:** LLM APIs (OpenAI/Gemini/Claude), Prompt Engineering, conversational AI/NLP, SQL, Python (basic), REST APIs
- Data & Analytics:** SQL, Metabase, Power BI, GA4, A/B testing, MS Excel (Advanced)
- Product & GTM:** PRDs, user research, requirements prioritization, GTM & growth strategy, roadmap, RICE, JIRA, Confluence
- Design & Prototyping:** Figma, Adobe Express, Canva AI, wireframing, clickable prototypes

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024)
- JIRA Certification — Udemy (2024)
