

KSHITIZ YADAV

Product Manager | E-commerce & B2C Marketplaces | Two-Sided Platforms | Growth & Monetization | AI / GenAI-Enabled
Gurugram, India • +91 8756972501 • kshitizyadav788@gmail.com • linkedin.com/in/kshitizyadav

PROFESSIONAL SUMMARY

Product Manager with 5+ years owning B2C marketplace products end-to-end at a high-growth EdTech platform — a two-sided marketplace connecting businesses (teachers) and consumers (students) through a shared LMS. Owns product strategy and roadmap across product discovery, checkout, payments, trust, and post-sale journeys, designing for both business and consumer users. Integrates Generative AI and LLM features with data-driven experimentation and personalization (SQL, Google Analytics (GA4), A/B testing) to lift engagement, conversion, and monetization — with a record of 20% revenue growth, 25% ARPU expansion, ₹70L in product-led renewals, and 2,000+ organic leads/month at 7% conversion. Delivers mobile-first experiences across platforms.

PROFESSIONAL EXPERIENCE

PlanetSpark — Product Manager

Gurugram • Mar 2021 – Present

Own the full product suite of a B2C EdTech marketplace -- one of India's largest public speaking & creative writing platforms, connecting students and teachers via a shared LMS: consumer app, student & teacher LMS, sales CRM, product-led growth & renewal engine, and an in-house AI layer.

E-commerce Marketplace Strategy (B2C • business + consumer)

- Own the product roadmap for a two-sided B2C marketplace connecting businesses (teachers) and consumers (students), balancing simplicity, trust, and performance across categories; built supply-side business tools — payout visibility, demo-performance and conversion analysis — and the consumer discovery-to-post-sale journey, lifting engagement and customer satisfaction.
- Re-architected the sign-up → product discovery → checkout funnel: single-step OTP sign-in, a preference-capture ranking model that personalizes best-fit listings during the counselor VC, 6 API-integrated payment gateways (Razorpay, PayU, PayGlocal, PayPal, Bajaj) enabling smooth transactions, and auto-cleared approval on payment — improving buyer conversion across discovery, checkout, and post-sale.

AI / Generative AI & Personalization

- Shipped a production Generative AI / LLM layer (speech and text learning with contextual, age-appropriate responses) and built "Demo Analysis," an in-house AI feature that analyzes user behavior to surface a personalized plan to sales — built on OpenAI, Gemini, and Claude APIs — running experimentation to improve personalization, automation, and operational efficiency.
- Built a support chatbot that cut escalations and automated enrolment verification (100% coverage); built insight-driven Power BI and SQL / Google Analytics dashboards for Marketing, Sales, and Operations, using data feedback loops to inform product strategy and category-specific performance.

Growth, Monetization & Trust

- Built the LPP monetization module and an in-product renewal / subscription engine (nudges, early-bird access, teacher-initiated renewals) — the repeat-usage and upsell levers — driving 20% revenue growth, 25% ARPU expansion (₹35K → ₹45K), and ₹70L in renewals in a single month.
- Built a customer verification (trust & safety) flow that cut fake sales from 10% to 1%, launched organic acquisition loops bringing 2,000+ leads/month at 7% conversion, and led the 0→1 launch of a mobile-first consumer app MVP in 2 months (+10% engagement).

CORE COMPETENCIES

E-commerce & Marketplace Strategy • B2C & Two-Sided Platforms • Product Roadmap & Strategy • Generative AI / LLM Product Development • Personalization & Ranking Models • Experimentation & A/B Testing • Monetization, Pricing & Subscriptions • Conversion & Funnel Optimization • Trust & Safety • Payments & Transactions • Analytics (SQL, Google Analytics / GA4) • Cross-Functional Stakeholder Management • Agile/Scrum • Mobile-First Product Design

TECHNICAL SKILLS & TOOLS

- Data & Analytics:** SQL, Google Analytics (GA4), MS Excel (Advanced), Python (basic)
- Design & Prototyping:** Figma, Adobe Express, Canva AI, wireframing, clickable prototypes
- Product & Delivery:** JIRA, Confluence, Agile/Scrum, RICE prioritization
- AI & Integration:** OpenAI / Gemini / Claude APIs, Prompt Engineering, REST APIs, NLP use-cases

EDUCATION

BBA — Chandigarh University, Chandigarh

2019 – 2021

Class XII (ISC), St. Thomas High School, Kanpur

2018

CERTIFICATIONS

- Product Management Certification — Udemy (2024) • JIRA Certification — Udemy (2024)
